

“ If I was building a house, I would go to Frank Lloyd Wright, but for anything to do with branded email, OnLetterhead is my architect. Their design department did a fantastic job in preparing the perfect representation of my brand. These branded email pieces will be an excellent addition to my existing marketing materials. Great job OnLetterhead!”

“ I want to thank you for developing the OnLetterhead email-branding product. I always felt uncomfortable sending information to my clients with email that didn't carry my company brand image. Many times I would end up faxing information or create a PDF file just so I could keep my company's identity in front of my customers. Now, I just send an OnLetterhead email and my customers see my company identity. My company looks more professional and my customers give me great feedback about our email image.”

“ When OnLetterhead first emailed me with their product, they immediately had my attention. As recruiting coordinator for our women's soccer team, I knew this is exactly the type of professional looking email we needed and that it would get the attention of the players we are after. This adds a whole new dimension to using email professionally.”

“ I Just wanted to say thank you for such an amazing product. My staff and I started using OnLetterhead immediately after installing. What a difference it has made with our clients, they are all asking where we got it. The links to our web site through the templates has created much more traffic, our sales reps are even getting more quotes. I personally like the professionalism that is portrayed through the great designs, as printers we have to maintain our corporate image and you have done a great job. ”

“ I wanted to let you know how pleased I was with the entire process in getting my account up and running! The tech staff gave me very realistic completion dates and DID what they said they would. I don't claim to be a genius with setting up websites and creating logo etc.. I had faith in the creativity of the Onletterhead staff and they came through with flying colors! The setup process was smooth and efficient which made my life easy! We've already received positive feedback and look forward to future success with one of our best recruiting tools in the place! Please give a big thanks to the whole staff! ”

“ OnLetterhead is a tremendous tool that allows us to present the tournament brand in a clean and professional style! It also provides us with the unique opportunity to promote our major sponsors and link to sales options each time we send or reply to email. In addition, the design process and customer service that OnLetterhead provides is exceptional! In a day and age where everyone is trying to promote their brand and products in a cost effective manner OnLetterhead is a must! ”

“ I would like to take this time to describe how useful "OnLetterehead" has been in gaining customers and creating sales opportunities that would have never existed otherwise. The coverage of such a system has brought in customers from Goderich, Peterborough, Acton, Whitby etc...Sales have increased for all staff who use the system diligently and FOLLOW UP! People who are in contact with the dealership without entering the front door always feel comfortable when they do get here and are relaxed because much information has already been exchanged. I express my thanks to this system as it has added much to our already high level of market penetration and customer service. ”

““ The reason that I became so excited about Onletterhead is that being in sales all of my life I know how important it is to get someone's attention in the first 10 seconds that I am in front of them. I have never had a problem with that face to face but the industries that I had been in the past had been changing to more contact by correspondence, especially by e-mail, and there was such a void that it was becoming harder and harder to get prospects to respond. The first time I saw Onletterhead it was very much a WOW product to me and I had to have it. ””

““ The OnLetterhead support team is second to none. They are attentive, accommodating and are always there to help us when we need it. They offer some of the best customer service I have encountered and truly care about their distributors and clients. They have managed to combine superior support and an excellent product into one fantastic system! ””

“ Onletterhead is the product I've been looking for my whole career. I've had the entrepreneurial spirit for as long as I can remember, but until now I couldn't find the right opportunity. The service and support I get from the OnLetterhead team is much more than I expected to get, and they are always working on more material to help me do my job better. Actually, in some cases, the flash demo they created makes the sale for me. With this tremendous support and incredible one of a kind product, I couldn't ask for a better company to distribute for. ”

“ I wanted to let you know that Garsite has been very pleased with the Onletterhead product. We have received a lot more traffic on our site and relate that to your product. I would like to go ahead and expand the program by adding 2 more of my sales people. Please bill me for the year for the both of them. Thanks again for showing me a great product! ”

“ I want to end by complimenting the entire design department on the great job you guys do on the designs and marketing materials. I guarantee you don't get the recognition you deserve for such quality work! Thank you so much!

Thank you for getting us started with OnLetterhead. Having OnLetterhead has refreshed our whole recruiting system as far as mailings go. Not only is it easy to use, we are eager to send more e-mails now! We have gotten such positive responses from recruits and coaches alike and look forward to using all of our designs. ”

Katie Rokus
Assistant Women's Basketball Coach

“ I just wanted to let you know how much this new letterhead has increased our responses from recruits. Even their parents respond back saying "how do you guys do that with your email?" We normally had to almost pull teeth to get any type of response from emails and now they write back most of the time. This is no doubt the best recruiting investment we've made outside of going to the kid's house itself. Well, that's all I wanted to say and I hope you guys are doing well in all your efforts. ”
