High Return Email Marketing™

How to Create an Explosive Return on Your Email Marketing Campaigns

The comment has been made that email is the “killer app” meaning it is truly the application that has changed the world and communication. Unfortunately a recent survey showed that 44% of people surveyed have limited their email usage because of SPAM! People simply don't have time to read all the email they receive – good or bad.

This workshop will show you how to get more of your messages delivered, opened, read, and acted upon by your customers and prospects. The program will show you how to build a responsive list, create copy that gets action, develop responsive landing pages, apply branding to email, plan entire email campaigns, create CAN-SPAM compliant campaigns, test, track and improve results.

Here is some of what you will learn:

- ✓ **5 mistakes of email marketing and how to avoid them.**
- ✓ **How to design a campaign that will generate more responses and higher leads and sales.**
- ✓ **6 ways to improve your email messages and response rates.**
- ✓ **Learn how to set up automated response email campaigns to automate lead conversion.**
- ✓ **4 ways to test your email campaign and maximize your responses.**
