DO YOU MAKE THESE MISTAKES WITH YOUR TAXES?

Once you send your tax return in to the IRS do you know what happens to it? Do you know what mistakes they are looking for? Will those mistakes trigger an audit? Are those mistakes making you pay higher taxes? Wouldn't you like to know if **YOUR** tax return has those mistakes?

The new budget passed for 2006 by Congress includes increased budgets for the IRS to increase investigations on small businesses and self employed individuals. That means that any mistakes in your tax return could have a greater chance of being caught or triggering an audit than last year.

Don't bring extra attention to you or your business this year...

Make sure you haven't made the mistakes with your personal or business tax return that could cost you more money in extra taxes, penalties, or interest. Get free information to help you avoid making some of the most common mistakes or better yet hire the Accounting Center.

They have experienced and knowledgeable CPAs that can help you avoid the mistakes that others make. Remember even if you don't get an audit you still might pay more in taxes than you should; after all, the IRS is happy to keep any extra money you send them!

HOW TO INCREASE YOUR TAX RETURN IN 2006!

Many people and families depend on their tax returns to do household projects, take vacations, and pay bills. What would a larger tax return do for you or your family this year? Many people try to save money by doing their own taxes or take it to the lowest tax prep service they can find.

In both cases the chances you will pay more in taxes increases. The tax laws change every year and tax returns are not exactly friendly or easy to complete documents! At the low cost tax prep services people often receive minimal training and don't always have the best or most updated information and that could be costing you more money.

Our experienced CPAs have years of tax preparation experience and keep up on the ever changing tax laws. Letting us help you will insure that you get all the deductions you are entitled to and pay the lowest amount of taxes possible.

We also insure that you don't make a mistake that will bring extra attention on you or your family from the IRS. We specialize in helping people keep more of what they make. Let us help you today. Read our free report about the deductions you might be missing today...
