FASTCLASS.COM LAUNCHES ITS NEW WEB SITE

AN INTERACTIVE ONLINE LEARNING SITE FOR REAL ESTATE AND FINANCIAL SERVICES
EDUCATION IN ILLINOIS

Naperville Illinois – (October 31, 2002) – Illinois Realtors and Financial Service professionals have a new way to obtain education – online. FastClass.com, an online educational leader in the Real Estate and Financial Services industries announced the launch of its new interactive distance learning web site FastClass.com™, available immediately. People interested in obtaining Real Estate or Financial Services licenses or continuing education credits in these fields now have an effective way to reach their goals online.

Until now the only way to obtain pre-licensing or continuing education in either Real Estate or Financial Services like Insurance or Securities has been to schedule and attend an instructor led class. Both practicing professionals and individuals entering the field found this system cumbersome as it required them to hunt for classes that fit their schedule. Adding to the burden, students were required to maintain flawless attendance to get credit for a class.

FastClass.com will offer state approved pre-licensing to individuals wishing to practice in the state of Illinois. All the courses can be started as soon as a student completes the registration process. The classes are self-paced and not led by an instructor, which allows students to complete classes when they have time.

About FastClass.com

FastClass.com is on a mission to be the premier online education provider for Real Estate and Financial Services on the web. FastClass.com is a wholly owned subsidiary of National Education Seminars. FastClass.com offers an ever expanding list of courses in Real Estate, Financial Services, and related industries that give busy, career-minded adults an alternative to classroom education that better meets their needs.
